Hi Dr. Fagan –

I just saw that the Fatal Facts was posted. It looks great! We are citing it in our upcoming proposed rulemaking, and I'm going to speaking at a few conferences in the near future about methylene chloride, and it is great to have such an excellent fact sheet to hand out. Thanks for including us in the review and congrats on getting it out.

Hi Dr. Fagan –

This is to follow up on the conversation we just had. It was great seeing this draft and I'm hoping that the Fatal Facts document gets finalized! As I mentioned, I would love to reference it in our upcoming proposed rulemaking. Please let me know if/when it is available publicly so I can cite it properly. For now, I'll leave the reference in, but can always eliminate it (with regrets!) if we get close to publication (October) and it is not yet finalized.

Thanks –

Hi All, Here is a draft of the Fatal Facts piece that OSHA is producing. We would appreciate your feedback! (No specific deadline but how about within the next 2-3 wks)

Thanks, Kathy
